I’m Sher.

A product designer focused on turning messy logic into seamless journeys.

Let’s connect on LinkedIn

I design app and web experiences at Virgin media O2, from account navigation to purchase journeys.

Evidence first

I start with behavioural data and research so design decisions have a reason behind them.

Clarity over clutter

I simplify complex products into journeys people can follow without thinking.

Built to scale

I work in design systems and Figma Variables so solutions hold up across teams.
